

Paper November 2003-PLAB

<http://www.aippg.com/plab-uk/>

<http://www.aippg.net/forum/viewforum.php?f=2>

Theme-1: Diabetes mellitus

- A- Excess insulin
- B- Relative deficiency of insulin
- C- Absolute deficiency of insulin
- D- Deficiency of catecholamines
- E- Excess of catecholamine
- F- Deficiency of glucocorticoids
- G- Excess of glucocorticoids
- H- Hypoglycemia
- I- Hyperglycemia

- 1- Young man, obese, hyperglycemia but no ketosis
- 2- Female with all signs/symptoms of Cushing's disease
- 3- Old man with signs & symptoms of hypoglycemia
- 4-

Theme-2: Causes of hypertension.

- A- Renal artery stenosis
- B- Conn's Syndrome
- C- Pheochromocytoma
- D- Pregnancy
- E- Cushing's
- F- Steroids induced

- 5- 45-year old obese women with moon face, hirsutism & hypertension
- 6- Pt with Hypertension, hypokalemia & altered serum phosphate
- 7- Young pt had Hypertension with bruit in abdomen.
- 8- Hypertension with pallor palpitation
- 9-

Theme-3: Differential Diagnosis of thyroid disease

- A- Hypothyroidism
- B- Drug induced
- C- Treated hyperthyroidism
- D- Anaplastic CA
- E-
- F- Papillary CA
- G- Thyrotoxicosis
- H-
- I-

- 10- 45-year -old female with palpitation, tachycardia & diarrhea.
- 11- Pt with exophthalmus, but no other signs of hyperthyroidism.
- 12- Thyroid disease following amiodarone for arrhythmias
- 13- 75-year old female with hard fixed thyroid-swelling shows poor response to medicines.
- 14- Lady presented with diarrhea, all investigations done but no cause found.

Theme-4: Investigation Bites-Repeat

- A- HIV antibodies
- B- Skin prick
- C- Skin swab culture
- D- Blood film for malaria parasite (thick smear)
- E- Lyme serology
- F- Immunization
- G-
- H-

- 16- Girl walks in forest & bitten from an insect, develops a red lesion.
- 17- A middle age Police officer bit by an i/v drug user
- 18- Man returns from Zambia with fever & rigors
- 19- A pt returning from ancola & with some symptoms _____,

Theme-5: Chronic renal failure management

- A- Erythropoietin
- B- Captopril
- C- Haemodialysis
- D- Beta Blockers
- E- Ca⁺⁺ channel blocker
- F- Spironolactone.
- G-
- H-
- I-

- 20- Pt with hypertension, asthma & Renal failure what will be the next step?
- 21- HIV positive pt with serum Cr 1300 & serum-K 7.0 what will be the next step?
- 22- End stage renal failure with anemia
- 23- Renal failure due to polycystic kidney & hypertension

Theme-6: Palliative Care (Analgesia)

- A- i/v morphine
- B- i/v benzodiazepines
- C- Paracetamol
- D- TENS
- E- Oral benzodiazepines
- F- S/C morphine thru syringe driver
- G- i/m morphine
- H- Steroids
- I- Radiotherapy
- J- S/C opioid

- 25- Man with CA prostate wants relief from skeletal pain as opioids failed.
- 26- Man with CA pancreas in last stages but suffering from pain, not responding to i/v morphine
- 27- Man with CA bronchus c/o anorexia & breathlessness after surgery.
- 28- Pt with CA breast c/o edema & pain in arm.
- 29- CA bronchus with metastases, critical stage, & high doses of opiates did not help him.
- 30- CA stomach with pain on oral morphine.

Theme-7: Prognosis & natural course of respiratory disease

- A- 80% chance having wheeze in adult life
- B- 50% chance of becoming normal by 6 yrs
- C- If untreated leads to abscess
- D- Very bad prognosis
- E- 70% chance of getting clubbing in adult hood
- F- Complaints end by the age of two
- G- Complaints end by proper feeding
- H- Prognosis not known
- I- Extrinsic allergic alveolitis
- J- Double auto Anti body
- K- 10% chance of COPD
- L- 60% chances of developing COPD in future

- 31- A mother brought her 6-month old girl with difficulty in breathing & vomiting related to feed.
- 32- A 5-year-old boy having exercise & cold induced wheeze mother has eczema
- 33- A 2-year-old boy with respiratory wheezing, coughing during winter, & hyper inflated lungs.
- 34- Child normal was playing suddenly developed breathlessness & monophonic wheeze
- 35- A 6-month old boy with nocturnal wheeze, not controlled by steroids.
- 36- 4-year old develops wheezing & chest tightness following exposure to pollens.
- 37- One question about Sjogren's investing.
- 38- Allergic symptoms in bird fancier
- 39- Child with purulent sputum & cough
- 40- 2-year old boy who has started Rx for recent onset of asthma.

Theme-8: Cause (Toxicology)

- A- Salicylates
- B- Paracetamol
- C- Metoclopramide
- D- Opioids
- E- Tricyclic Antidepressants
- F- Digoxin
- G- CO
- H- Diazepam
- I- Carbamazepine.

- 41- Development of hepatitis 3-4 days after indigestion
- 42- Dystonia, oculogyric crisis
- 43- Pinpoint pupils respiratory depression
- 44- Women on neuropsychiatric drugs at night now c/o agitation & dizziness
- 45- Visual problems, & bradycardia
- 46- Man with shingles in thoracic area 2nd day

Theme-9: Neurological diagnosis

- A- Glioma
- B- Meningioma
- C- Multiple sclerosis
- D- Stroke
- E- Hydrocephalus,
- F- Cerebrovascular
- G- MND
- H- Alzheimer's
- I- Meningitis
- J- Parkinsonism
- K- Creutzfeldt Jacobs

- 48- 40 year old lady is having progressive weakness of limbs for the last 18 months & she also developed slurring of speech. now presented with loss of vision on Right eye
- 49- Patients age around 40 is having headache & vomiting is waiting for neuro-surgery & radiotherapy.
- 50- Dysarthria head ache dysphagia
- 51- Hoarseness dysphagia LL paresis
- 52- Wheel chaired with neurology problems blurring vision
- 53- Bed ridden with increasing forgetfulness

Theme-10: Child hood convulsions management

- A- EEG
- B- Drug levels
- C- i/v Diazepam
- D- Cerebral angiography
- E- Lumbar puncture
- F- Teach parents of rectal diazepam
- G-
- H-

- 54- Child with high fever & fit
- 55- Child with recurrent febrile, convulsions.
- 56- Child with fever, fits, rashes, confusion.
- 57- Obese Child taking valproate but epilepsy still not controlled.
- 58- Child with seizure before arrival at hospital but all right now. GPE & systemic exam was unremarkable.

Theme-11: Diagnosis of anaemia

- A- Macrocytic anemia
- B- Sickle cell anemia
- C- Iron def anemia
- D- Aplastic anemia
- E- Spherocytosis
- F- Sideroblastic anemia
- G-
- H-
- I-

- 60- Lady presented with sore tongue
- 61- Old man with bruising on chest, infection & low Hb
- 62- Lady presents with menorrhagia with brown clots.
- 63- Something about sickle cell anemia
- 64- CA. stomach with anemia

Theme-12: Enzyme Defect

- A. Creatinine phosphokinase
- B. Troponin-T
- C. Phenylalanine hydroxylase
- D. Aspartate aminotransferase
- E. Alanine aminotransferase
- F. The MM isoenzyme of creatinine kinase
- G. The MB isoenzyme of creatinine kinase
- H. The BB isoenzyme of creatinine kinase
- I. Cystathionine synthetase
- J. Lactic dehydrogenase

66. Which enzyme occurs in high concentration in the sarcoplasm of skeletal muscle?
67. Which enzyme regulates the Ca-mediated contractile process of striated muscle & is most specific for minor degrees of myocardial necrosis?
68. A Middle Eastern male child with fair complexion adopted soon after his premature birth, is noted to have delayed milestones at 8 months of age. He is also noted to have eczema. At 2 years of age the child has severe mental retardation with no pyramidal or extra pyramidal signs. Mental retardation in this child is more likely to be a defect in which enzyme?
69. A 20-year-old male with mild mental retardation has had 2 successive strokes within a year. On examination he had a marfanoid habitus, with long limbs & pectus excavatum. What is the most likely enzyme defect?
70. Liver congestion is most commonly associated with the elevation of which enzyme?

Theme-13: Types of emboli

- A. Thrombus emboli
- B. Fat emboli
- C. Amniotic fluid emboli
- D. Malignant emboli
- E. Atheromatous emboli
- F. Septic emboli
- G. Paradoxical emboli
- H. Fibrin emboli
- I. Bone fragment emboli
- J. Air emboli

71. A patient with DVT, was complicated by cerebral & extremity emboli. On ECHO he was noted to have a patent foramen ovale. The combination of DVT, PFO & arterial emboli suggest which phenomenon?
72. A 28 year old with known congenital heart disease, develops small tender subcutaneous nodules in the pulp of the digits. On examination the nodules were red & tender. The patient was noted to have splenomegaly & a new heart murmur. The finger tip nodules are most likely secondary to
73. A 30 year old in her 3rd trimester of pregnancy presents with chest pain & dyspnoea increasing in severity over the last 24-hrs. She has no lower limb pain or swelling. The pt is likely to have what
- 74.

Theme-14: Diagnosis of peripheral vascular disease

- A- Mural thrombus
- B- Acute thrombus
- C- Burger's
- D- Diabetes
- E-
- F- DVT

- 75- Young smoker with peripheral vascular disease.
- 76- AF with pulselessness pallor of extremities.
- 77- MI with claudication & angina with ischemia of lower limb.
- 78- Old age with gangrene following chiropody.
- 79- Pregnant lady with sudden breathlessness & calf pain.

Theme-15: Anatomy Of Heart (causes)

- A- Left atrium
- B- Right atrium
- C- Left ventricle
- D- Right ventricle
- E- Mitral valve
- F- Tricuspid valve
- G- Coronary arteries
- H- Interatrial septum
- I- Interventricular septum
- J- broncho pulmonary displasia
- K- SA-node
- L- AV-node
- M- Bundle of His

- 80- Location of endocarditis in iv drug abuser
- 81- Location of patent foramen ovale
- 82- Blood spurts into left atrium & increase left atrial pressure (regurgitation from LV).
- 83- Site of Cardiac aneurysm
- 84- Regurgitation of blood in the left ventricle
- 85- Structure responsible for heart rhythm in third degree, complete heart block.
- 86- Increased pulmonary pressure

Theme-16: Management of cardiac conditions

- A- Surgical ablation of tracts
- B- Verapamil
- C- Digoxin
- D- Enalapril
- E- Amiodarone
- F- DC cardioversion
- G- Adenosine
- H- Atropine
- I- Lignocaine

- 87- A patient with heart failure presents to you with afibrillation....
- 88- A patient having SVT with BP 90/60. Sinus massage & adenosine has failed. Whats next?
- 89- A patient with Myocardial Infarction presents with recurrent Ventricular tachycardia controlled with lignocaine now need maintenance.
- 90- WPW –no response to drugs

Theme-17: Chest Trauma

- A- Aortic rupture
- B- Tension pneumothorax
- C- Spontaneous pneumothorax
- D- Ruptured Esophagus
- E-

- 92- Chest trauma with absent breath sounds & tracheal shift & absent radial pulse
- 93- Young tall thin worker with signs of pneumothorax
- 94- Injury to sternum with steering wheel widened mediastinum

Theme-18: Acute abdomen diagnosis

- A- X-Ray KUB
- B- Chest x-ray
- C- X-ray abdomen
- D- Pregnancy test
- E- Sigmoidoscopy
- F- Laparoscopy.
- G- Urine R/E.
- H- Colonoscopy.
- I- Usg Abdomen.
- J- Barium enema.

- 96-** 32-year old male with nausea, vomiting, colicky abdominal pain & distention O/E abdominal tenderness, high-pitched bowel sounds
- 97-** 60-year old male with signs of ileus & peritonitis following diverticulitis
- 98-** Carcinoma colon investigation
- 99-** 23 year old female presents with left sided abdominal pain for 4 hours , her last period was 7 weeks back

Theme-19: Management Of Sprains & Injuries

- A- Paracetamol
- B- Suture repair
- C- Cast
- D- No weight bearing use crutches
- E- NSAIDs
- F- Manipulation
- G- Morphine
- H- Observe

- 100.** A Pt with dislocated patella & he is on inhaled analgesia (nitrous oxide).
- 101.** Pt had rupture Achilles tendon earlier, which was managed medically, now presented with rupture again. Medical treatment is not responding now.
- 102.** Pregnant lady had fall, pain, mild swelling & bruising at medial malleolus. On xray no #.
- 103.** During a match rugby player injured his knee, on x-ray no fracture but pain++.
- 104.** A 4 year old child brought to A&E with knee trauma & in pain despite Paracetamol.

Theme-20: Investigation ORTHO

- A- Spine x ray
- B- DSA scan
- C- Serum electrophoresis
- D- MRI
- E- CT
- F- Serum Ca
- G-
- H-
- I-

- 106-** Man presents with foot drop on x ray there is narrowing b/w I4 & I5 foot drop does not resolve in 2 weeks
- 107-** Pt present with back pain x ray gives sacroilitis like picture
- 108-** Old aged male Pt with back pain, fractured spine & high ESR (*Ankylosing spondylitis*)

Theme-21: Pre-Op Investigation

- A- Do nothing
- B- FBC
- C- ECHO
- D- ECG
- E- Sickle screening #
- F- CXR
- G- Hepatitis serology
- H- Coagulation screen

- 110-** British fit man for bilateral inguinal hernia
- 111-** Afro-Caribbean man bilateral inguinal hernia
- 112-** Man on list for hernia repair who takes recreational i/v drugs
- 113-** Man with irregular pulse having hernia
- 114-** Lady for some surgery h/o antibiotic prophylaxis in a dental extraction

Theme-22: Investigations (Renal Stones)

- A- Serum ca
- B- Serum phosphate count
- C- Parathyroid level
- D- Urine cystine
- F- Urine oxalate count
- G- IVU
- H- X ray KUB
- I- 24 hr urine
- J- Ultrasound
- K- Urine culture
- L- Isotope scan
- M- Nephrostomy

- 115- A patient with right loin pain & pyrexia. recent MU showed Right hydronephrosis. Next investigation that may help in the management?
- 116- Man with h/o ca prostate on x ray nothing on IVU bilateral hydronephrosis
- 117- Man with recurrent renal stones & high serum Calcium levels.
- 118- Post-op CA cervix with anuria. B/L obstruction of the ureters & B/L hydronephrosis

Theme-23: Next step in the following conditions

- A- USG abdomen
- B- Catheterisation
- C- Ascending urethrogram
- D- Splenectomy
- E- Laparoscopy
- F- Observation
- G. Abdominal tapping
- H. Laparotomy
- I. Blood transfusion
- J. Get an expert opinion
- K. IVU
- L- MRI

- 120- A rugby player was hit in the back & come with loin pain & haematuria. management
- 121- Young man with one episode of frank haematuria & he was stable but presented with anuria.
- 122- A male with anuria brought to A&E after injury with bruising on perineum, the digital rectal exam was normal next step
- 123- A pt with h/o RTA have fracture of Left lower ribs. Pt is having left sided abdominal pain & progressive guarding of Left hypochondrium. O/E, PR=110/min & BP 90/60. What is the next step?

Theme-24: diagnosis of GI conditions

- A- Achlasia
- B- GORD
- C- Esophagitis
- D- Peptic ulcer
- E- Duodenal ulcer
- F- H Pylori
- G- Strongyloides stercoralis

- 124- Pt with pain in epigastrium endo scopy confirm spiral shaped organisms.
- 125- Change of epithelium from columnar to
- 126- Female with pain in epigastrium at night relieved by eating.

Upper GI bleeding (miscellaneous)

- UGI bleeding with primary biliary sclerosis (*Inv.*)
- UGI bleeding with h. pylori (*Mx*)
- UGI bleeding with spiral forms in microscopy (*BA meal*)
- UGI bleeding with retching & vomiting (*Mgt*)
- Dyspepsia with NSAID (*Erosions*)

Theme-25: CT-scan findings in a Pt with hearing Loss

- A- Acoustic neuroma
- B- Metastatic CA breast
- C- Paget's disease of bone
- D- Otosclerosis
- E- Cholesteatoma
- F- Noise induced deafness
- G- Otitis media with effusion
- H- high frequency hearing loss
- I-
- J-

- 128- 9-year-old boy CT-scan of petrous bone shows air on mastoid cells malleus, incus & stapes normal, collection of fluid found
- 129- 40-year-old lady. CT petrous bone normal. Maleus & incus normal. Cochlea with rarefaction & densities
- 130- 19-year-old boy with mass in the antrum resolution of some bone
- 131- 60-year-old man CT of petrous bone normal with both contrast

Theme-26: Diagnosis of Epistaxis

- A-Septal perforation
- B-Hypertension
- C- ORF
- D- Coagulopathy
- E- Nasopharyngeal CA
- F-
- G-
- H-
- I-

- 132- Sheep farmer with epistaxis
- 133- Boxer with gurgling sound & epistaxis
- 134- Chrome factory worker with epistaxis
- 135- Old man with epistaxis
- 136- Young girl with h/o bleeding fol. dental extraction

ENT Miscellaneous Qs

- A- CA maxillary antrum
- B- Sarcoidosis
- C- Nasal polyposis
- Man with swelling over cheek & signs/symp of ca maxillary sinus
- Sheep keeper got a polyp in nose

Theme-27: Red Eye Investigation

- A- X-Ray orbit
- B- Conjunctival swab cytology
- C-
- D- Fluorescein stain
- E- Refer to ophthalmologist
- F-
- G- Fundoscopy
- H- Measure IOP

- 138- Hedge gardener develops sudden photophobia & blepharospasm
- 139- A man working of a metal factory c/o something in his eye
- 140- Pt with herpes zoster c/o ophthalmic shingles terrible conjunctivitis & is unable to close eye
- 141- Headache, photophobia, diminished vision

Theme-28: Prenatal screening [Repeat]

- A- Down's syndrome
- B- Cystic fibrosis
- C- Duchenne's muscular dystrophy
- D- Spina bifida
- E- Spinal muscle atrophy
- F- Patau syndrome
- G- Klinefelter's syndrome
- H- Weber's syndrome
- I- Multiple sclerosis
- J- Neural tube defects

- 143- Raised AFP & very high HCG
- 144- Previous sibling has some disease now mother pregnant with boy & she wants to know whether the new comer will have it
- 145- Raised HCG & low AFP
- 146- Previous child has recurrent infection & below percentile. Mother wants to know whether next child has it
- 147- This disease is related with increased risk of Alzheimer's disease
- 148- Pregnant mother given folic acid to prevent some disease.

Theme-29: Treatment of STDs

- A- Single dose long acting Penicillin
- B- Ciprofloxacin
- C- Doxycycline
- D- Erythromycin
- E- Metronidazole
- F- Topical co-trimazole
- G- Nystatin oral
- H- Steroids

- 149- Essential drug to be included in Gonococcal cervicitis
- 150- Lady with Chlamydial Infection
- 151- Drug Rx in Pregnant lady with Chlamydial infection
- 152- Lady with bacterial Vaginosis
- 153- Lady with candidiasis

Theme-30: Next step of management GYN

- A- Cervical smear
- B- Cervical biopsy
- C- Laparoscopy
- D- Per speculum exam
- E- Colposcopy
- F-

- 155- Lady with diagnosed CIN-1. CA cervix 6 months back now comes for follow up
- 156- Lady with CIN-2 diagnosed 6 month back now comes for follow up
- 157- Post menopausal women with bleeding & dyspareunia
- 158- Pre menopausal women with ectropion & bleeding

Theme-: Miscellaneous Qs Diagnosis GYN

- A- Stress incontinence,
- B- Urge incontinence
- C- True incontinence
- D- Fibroids
- E- Ectopic pregnancy
- F- Endometrial carcinoma
- G- Uretro vaginal fistula.
- H-

- 159- After surgery dripping of urine
- 160- Lady presented with urine voided on coughing.
- 161- Africo-caribbean lady with problem of heavy menorrhagia.
- 162- Post menopausal women with bleeding pervaginum

Theme-31: Epidemiology in Psychiatric disorders

- A- Depression
- B- Schizophrenia
- C- Obsessive Compulsive Disorder
- D- Anorexia Nervosa
- E- Bulimia Nervosa
- F- Anxiety
- G- Starvation
- H- Alcohol
- I- Drug Addiction

- 163- Most commonly seen in developed countries where the females are more conscious than men about weight gain.
- 164- The psychiatric disorder occurs less in elderly & 4-time more in women.
- 165- A student preparing for the exam for the last 4 weeks & having weight loss of 10 kg. But feeling perfectly alright.
- 166- A business man presents to you having trouble sleeping & poor appetite Due to some changes in his business..
dont remember exactly.
- 167- This disease is more common in females increases as age advances

Theme-32: Causes of confusion

- A- EDH
- B- Hypothyroid
- C- Alzheimer's
- D- UTI
- E- DM
- F-

- 169- Confusion with intake of drugs prescribe for his parents
- 170- Alcoholic with confusion
- 171- Confusion with i ncreased forgetfulness
- 172- Confusion with incontinence
- 173- Confusion with constipation hoarseness hypotonia

Theme-33: Alcoholism & Drugs Addiction

- A- Less coffee
- B- Starvation
- C- Diazepam
- D- Admit
- E- Methadone
- F- Chlorpromazine
- G- Benzodiazepines
- H- Increase oral vitamin doses
- I- Naltraxone
- J-
- K-

- 175- Shaking after alcohol abstinence
- 176- Alcoholic been to support groups before & not helped. Wants to give up alcohol
- 177- An alcoholic who was on a 36 hr non stop alcoholic binge, came to A&E after 2 days(when he didn't drink)but he is prone to getting violent when drunk,. He comes with drowsiness
- 178- An alcoholic who has features of Korsakoff's comes with auditory hallucinations; he is already taking oral vitamin supplements.
- 179- Cocaine user willing to stop
- 180- A heroin addict wants to quit
- 181- Student with more tremors before exams
- 182- Old man with nutritional deficiencies
- 183- Delirium tremens treatment

Theme-34: Treatment in skin lesions (Eczema)

- A- Hydrocortisone 2%
- B- Topical antibiotics
- C- Topical hydrocortisone 1%
- D- Systemic steroids
- E- Topical aciclovir,
- F- i/v aciclovir,
- G- Oral aciclovir,
- H- Flucloxacillin,
- I- Emollients
- J- Carbamazepine
- K- Amitriptyline.

- 185- A boy with eczema wiping vesicles, redness.....etc
- 186- A boy with eczema, intense itching & scratch marks
- 187- A man with eczema that topical hydrocortisone 1% did not help
- 188- A child with herpetic whitlow come with some blisters over the trunk, Rx?
- 189- 80 yr old lady with herpetic rash appearing 5 days back on the back of her trunk. Rx.
- 190- HIV with herpes
- 191- Qs about Herpetic neuralgia
- 192- Pregnancy with shingles

Miscellaneous EMQs

- 193- Factory worker with loss of wt thickened pleura etc
- 194- African with supra clavicular LN enlargement & weight loss

Chest pain

Angina MI Peptic ulcer

- 195- A young man p/w pain in chest radiating to left jaw
- 196- Old man p/w pain in epigastrium related to exertion
- 197- Lady with breast cancer presents with confusion **investigation**,
S. calcium
Dexa bone scan
S. urate
bone X-rays
- 198- Appendicular mass in child afebrile **management**
