

Paper January 2003 PLAB

<http://www.aippg.com/plab-uk/>
<http://www.aippg.net/forum/viewforum.php?f=2>

Theme 1. Shock

- A. Septic-gram -ve septicemia
B. Cardiogenic
C. Hypovolemic
D. Anaphylaxis
E
1. A young boy after eating peanuts suddenly develop difficulty of breathing with red oedematous lips.
 2. Pt had an accident & fracture of pelvis & femur ,B.P-100/70, Pulse-90
 3. Pt had an M.I. & then is in shock now
 4. A middle aged man has been operated for a perforated gall bladder. He becomes progressively drowsy with warm peripheries. BP 90/60, PR 110

Theme 2. Epistaxis

- A. Anterior nasal packing
B. Post nasal packing
C. Neomycin cream
D. Pinching of the nose
E. Reassurance
F. Vit k
G. FFP
H. Ice pack on the nose
5. Pt on warfarin , comes with you with nose bleeds INR is 0.9
 6. Boy has come with slight bleeding from nose 2 days ago. On examination of the nose showed redness & crusting.
 7. Pt came with BP-230/110, bleeding from nose, his circulatory system has been stabilized, nose ant. packing done ? but he continues to bleed
 8. Girl has come with slight bleeding from ant part of nose . by the time she reaches a-e bleeding has stopped

Theme 3. Fractures Of Wrist Joint

- A. X -ray of wrist scaphoid view
B. Refer to ortho doctor immediately
C. Bandage & discharge
D. Isotope scan
E
9. Boy fell from tree now has come with painful wrist x- ray taken was normal
 10. Pt had a fall x- ray shows perilunate fracture .
 11. Pt had a fall x ray normal , tenderness in anatomical snuff box
 12. Pt had a fall, X-ray showed displacement of the radius

Theme 4. Relation To Obesity

- A. Obstructive sleep apnoea
B. Type 1 DM
C. Type 2 DM
D. Alcohol
E. Cushing's
F. Hypothyroidism
G. Polycystic Ovary Disease
13. Wt loss would help night sleep & this condition & improve family relations
 14. Wt loss would even help to stop the medications
 15. Stop of this would help in wt loss & vitamin deficiency
 16. Surgery in this condition in a female would help in wt loss & improve this condition

Theme 5. Delayed Milestone

- A. Fragile x syndrome
- B. Tay-sachs disease
- C. Bacterial meningitis
- D. Hypothyroidism
- E. Prematurity
- F. Duchennes muscular atrophy
- G. Fetus alcohol syndrome

- 17. A 4 yrs old boy can write his name & draw a circle & square; he walks with a lordosis & he cannot run.
- 18. 3 yrs boy, has delayed milestones his uncle & brother also have this condition
- 19. Girl can sort out cube 4 9 & is 97 percentile for her weight, but her head circumference is lower than normal
- 20. A six months old child, can smile, but has head lag.
- 21. Child was normal but then delayed milestones after a fever

Theme 6. Psychiatric Management How Can You Help These Pts

- A. Methadone
- B. Propanolol
- C. Diazepam
- D. Acomprosate
- E. Zopiclone
- F. Risperidone
- G. Amitryptilline

- 22. A girl has oral numbness & limb paraesthesias after an argument with her friend
- 23. Pt a heroin addict - now in ward in withdrawal wants u to help him
- 24. An alcoholic now has been detoxified feel that he wants to remain off it but is scare he may relapse
- 25. Female with s-s of pain in chest; tightness, feeling like dying & sinking feeling, wants some medication for her condition.
- 26. Pt has to go for an interview has sweaty palms & palpitations asks for your help.
- 27. Pt having restlessness, pacing up & down after death of her husband with difficulty in falling asleep .

Theme 7. Diagnosis Of Psychiatric Disease

- A. Post-traumatic disorder
- B. Post natal-psychosis
- C. Though -broadcasting,
- D. Insertion ,
- E. Echo
- F. Hallucination
- G. Illusion
- H. Paranoid delusions
- I. Judgment
- J. Insight
- K. Low mood
- L. Flight of ideas

- 28. Pt keeps on talking to you non stop & jumps from one topic to another
- 29. Pt after the birth of her child feels sad & does not want to feed the baby
- 30. Pt has the believe that his neighbor is planning an attack
- 31. A old woman has been admitted & feels that the staff of the hospital knows what she is thinking all the time.
- 32. Pt who lost her husband is sad now & avoids eye contact
- 33. A man has psychiatric problem & he knows that he need a treatment

Theme 8 Vomitting In Pregnancy

- A. Hyperemesis gravidum
- B. Hydatid form mole
- C. Cholecystitis
- D. Chloecystic pregnancy
- E. Brain tumour
- F. pre eclampsia
- G. migraine

- 34. 12 weeks pregnant woman has been continuously vomiting , comes with a furred tongue & signs of dehydration & uremia.
- 35. A 14 weeks pregnant woman comes to you with severe vomiting , u.s of uterus shows absence of f.h.s. & the uterine is 18 weeks to date.
- 36. Pt comes to u with severe vomitting , dizziness & photophobia. She is in the 34 week , she tells you that she had these symptoms since 14 weeks & o/e her pulse rate is 60 /min
- 37. A pregnant woman had a nauseous & vomit since week 18 & these symptoms

have got worse since two weeks & she is anorexic, vomiting & slightly jaundice.

Theme 9. Nerve Injury

- A. Axillary
- B. Musculocutaneous
- C. Radial
- D. Ulnar
- E. Common peroneal nerve
- F. Sciatic

- 38. Pt has history of fracture shoulder now has decreased sensation on the lateral aspect of the deltoid muscle
- 39. Pt had fracture of fibula or at level of fibula & now lost his dorsiflex & sensation loss on the lateral side of his low leg.
- 40. Pt had fracture of medial epicondyle & now come with decreased sensation of 5th & 4th finger
- 41. Pt has some fracture of humerus & comes with s/s/ of wrist drop
- 42. Old man had a fall & fracture or dislocation of hip now has weakness in his hamstring.

Theme 10. Pain relief

- A. Allopurinol
- B. Radio therapy
- C. TENS
- D. I/m diam orphine
- E. Oral NSAIDs
- F. Paracetamol
- G. Prednisolone
- H. Physiotherapy
- I. Home exercise
- J. I/M steroids in joint

- 43. Pt with CA-prostate & now has 2 aries to back with severe pain, no NSAIDs, morphine has helped? wants to continue his work.
- 44. Pt with ca lung with 2 aries now has come with an unilateral swollen arm , all other medications have failed (i.e nsaid & morphine)
- 45. 50 yr old woman has come with painful shoulder joint & hip joint
- 46. 30 yr old busy executive has got pain on lateral aspect of thigh . he shows no improvement with nsaid . x ray taken was normal

47. A man is on Fresmidol & got pain in his joint

Theme 11. MECHANISM OF ABORTION

- a. Immunological
- b. Genetic
- c. Anatomical
- d. Endocrine
- e. Drug-induced
- f

- 48. Pt having 6 abortions in mid trimester
- 49. Pt having some problem with the deformed child (She married her cousin)
- 50. Pt has recurrent abortions, is obese & hirsutism.

Theme 12. Investigation Of Leg Ulcers

- A. Pyoderma gangrenosum
- B. Bowen's disease
- C. Venous stasis
- D. Arteriography
- E. Melanoma biopsy
- F

- 51. Pt having pain on walking. His leg & foot are pale & with the 4th & 5th digit blackened
- 52. Pt with diarrhea. abdominal pain had a small round (with central necrotic tissue)
- 53. Female fat obese & having edema of leg now has a small ulcer on medial aspect of her ankle.
- 54. 60 Yrs old man with a pigmented skin lesion on his shin.

Theme 13. Head Pathology

- A. Intra-cerebral hematoma
 - B. Brain stem injury
 - C. Extradural hematoma
 - D. Subdural hematoma (SDH)
 - E. Acute SDH
 - F. Chronic SDH
 - G. Vertebrobasilar ischaemia
 - H. Migraine
 - I. Depressed fracture of skull
 - J. Subarachnoid Hemorrhage
55. Motor cyclist with accident is brought to A&E with head injury. GCS-3 & his BP-180/100 & Pulse-56/min & his pupil is dilated & sluggish to light, no neurological sign except his plantars are going up.
56. Young male 27 after a heavy bout of alcohol fell down on the road & then got up & walked home. His wife found him on the floor & cannot rouse & has fluctuating consciousness.
57. 67 yrs old man had recent falls, became agitated & confused.
58. A old lady has dizziness & vertigo & walking reeling to one side.
59. Female at A&E with vomiting & severe pain in the back of the head
60. Pt hit on the head with a hammer, now comes with vomiting
61. Young man fell over & there is injury on his temple scalp (he is alert)

Theme 14. Diagnostic tests on loss of vision

- A. MRI temporal lobe
 - B. MRI pituitary
 - C. MRI occipital lobe
 - D. Doppler carotid artery
 - E. ESR
 - F. MRI parietal lobe
62. Pt comes with repeated h/o loss of vision in one eye & it improves after a few hours
63. Pt with bitemporal hemianopia & increase in shoe size.
64. Pt has come with vomiting & upper quadrantanopia (not sure of the full question)
65. Pt having pain while brushing her hair & now comes with loss of vision in one eye

Theme 15. Management Of Injuries

- A. Laparotomy
 - B. Refer to surgeon
 - C. Admit & observe
 - D. Give iv fluids 1 litre in 30 mins
 - E. IV fluids 2 litters in 30 mins
 - F. Reassurance & send home
66. Boy has come with injury by fall on handle of cycle & had got pain & tenderness in left upper side of abdomen. U/S of spleen shows a small sized haematoma or infarct in the splenic capsule
67. Pt with being hit by a ball comes with severe pain in epigastrium
68. Pt was stabbed in a fight & now comes with his omentum (or omentocele outside in the umbilical area). His BP is 110/70 & heart rate 80.
69. Pt with h/o fall has come with tenderness in left side of abdomen & fracture of 2 right-sided ribs. Pt in shock
70. Pt had (some sort of injury), after 2-L IV fluid, his BP is low & HR higher.

Theme 16. Management investigation of seizures

- A. Start anti-convulsants
 - B. Reassurance
 - C. Anxiolytic treatment
 - D. Vulvar surgery
 - E. EEG.
 - F. ECG
 - G. I.V. glucose
71. A 50 yrs old man had hemoptysis & cough for some time & now come with a first fit.
72. 8 year girl falls down in the assembly. She is pale & loss consciousness for 1 min. She often falls in dentist visit.
73. Boy has period of breath holding spells where he becomes blue & loss consciousness. This happens when he is separating from his parents.
74. A 30 year female has 2-3 episodes of falling down, she also has got a loud murmur in inspiration
75. A 50 yrs woman has episodes of unconsciousness starting in the left thumb & then going to whole body. she loses consciousness
76. A 10 yrs boy behaves strangely (cannot remember exactly), & his teacher says that he is not concentrating at the moment.
77. A young man has some kind of fit, his heart rate drop down to 50/min
78. A young boy has fit, he is a DM, his blood glucose is 2mmol.

Theme 17. Haemetemesis

- A. Mallory Weiss tear
- B. Alcoholic cirrhosis
- C. Gastric erosion
- D. Peptic ulcer
- E. Duodenal ulcer
- F. Diverticulosis
- G. Benign gastric ulcer

78. 55-yrs alcoholic drinking 15-units/day now came with massive hematemeses
79. Pt comes with massive hematemeses after eating a lot & a bout of alcohol
80. Pt suffering from RA comes with vomiting with streaks of blood
81. A 50 years old manager had epigastric discomfort for some time & his stool is tarry. He is otherwise normal.

Theme 18. Management Of Drug Side-Effects

- A. Drug serum levels
- B. Thyroid function tests
- C. Liver function tests
- D. S Prolactin levels
- E. Urea & electrolytes
- F. Increase / decrease levels of insulin

82. Pt on lithium now comes to you with tremors of hand
83. Pt on lithium now comes with wt gain, slow down
84. Pt on phenytoin for epilepsy now came with dizziness, blurred vision & ataxia
85. Male Pt on phenothiazines now comes with a painful or lactating breasts?
86. A man take overdose of his Aspirin. Conscious (did not mention how much & when)

Theme 19. Hearing Problem

- A. Ototoxicity
- B. Tilt test (BPV)
- C. Salicylate levels
- D. Fracture petrous temporal bone
- E. Wax in ears
- F. Acoustic neuroma
- G. Blast injury
- H. Syringing

87. Pt on gentamycin comes with ringing of ears
88. Pt with some pathology of ear comes with tinnitus & it worsens with movement. the test for it is by lowering the Pt
89. Pt took some treatment for his shoulder pain or headache? & now comes with tinnitus
90. A boy was hit & fell & hit somewhere behind his ear & now comes with difficulty in hearing & tinnitus
91. Vagrant comes to A&E with diminished hearing particularly after a shower.
92. A Pt who is anesthetic to his cornea reflex has a diminished hearing. CT showed a widened ear canal.

Theme 20. How Would You Help This Lady

- A. Home redecoration
- B. Advice on posture
- C. Neck collar
- D. Review the dose of anti hypertension
- E. Review the dose of anti diabetics
- F. Rearrange home
- G. Eye sight test

93. Lady on Asprin, end of loridazole 7.5 mg comes to you with repeated falls while trying to get out of bed
94. Lady on various medication one of them which is glibenclamide come to you with sweating & altered consciousness
95. Lady 85 year old lives alone fell down while trying to put up her curtains. This

has occurred on another same occasion.

Theme 21. Anal Conditions

- A) Anal hematoma
- B) Ischaemic colitis
- C) Proctalis fugalis
- D) CA rectum
- E) Sq cell ca of anus
- F) Choron's
- G) Ulcerative colitis
- H) Anal fissure

- 96. Pt comes to you a young woman with electric pain in the rectum
- 97. Young girl with h/o/ constipation cannot pass stools. PR is impossible because of the pain.
- 98. A young woman has constipation & painless fresh blood after defecation
- 99. A woman of 29 of age has diarrhea & colic abdominal pain with tags in her anal exam

Theme 22. Diagnosis Of Rectal Conditions

- A) Rectal hematoma
- B) Carcinoma of rectum
- C) Ischaemia colitis
- D) Ulcerative colitis
- E) Crohns disease

- 100. 50 year old Pt with diarrhea & pain in abdomen
- 101. On proctosigmoidoscopy an ulcer is found 10 cm from the rectum
- 102. Pt has come with pain while defecating. o/e anal cushions are found which are purple in color
- 103. Pt comes with h/o/ fever & diarrhea on biopsy granuloma found

Theme 23 Contraception

- A) Abstinence
- B) Mirena coil
- C) 9 nothistone
- D) OCPs
- E) Progesterone only pills
- F) IUCD
- G) Depot preparations depot vera
- H) Tubal ligation
- I) Vasectomy
- J) Rhythm method
- K) Withdrawal
- L) Ovulation testing
- M) Condom
- N) Diaphragm

104. A 47 year old woman with 9 month h/o amenorrhea now comes wanting to have contraception. She says that her husband is not reliable with condoms & she doesnt want chemicals in her body
105. A 26 yrs old lady with irregular periods of 24 to 40 day variations, she does not want children for the next two years. She comes to you saying she wants a natural method of contraception
106. 37 yrs old lady with 2 children & a hectic life style comes to you for contraception. She wants reliable method since she was pregnant when she was on the oral combined contraceptive last time.
107. Lady 26 year old .2 kids the youngest 6 months says she wants to be sterilized. She has separated from her husband & she does not want to put weight on since the oral combined contraception did before.

Theme 24. Investigations for fever

- A) Plasmodium vivax
- B) Falci-parum ovale
- C) Lumbar puncture
- D) Lyme's serology
- E) Brucellosis

108. Pt returned from Zambia now has fever with rigors & fits
109. Young girl with fever, ash & neck stiffness
110. 18 yr old boy has come back from Mexico after working in a farm there & now has fever with splenomegaly.
111. Girl went out in the forest for walk now has a tick bite & has fever at the moment
112. Surgical conditions what is the rx

Theme 25. Management of post-operation

- A) Catecholamine
- B) Dopamine
- C) Laparotomy
- D) Antibiotics
- E) Wide excision of affected tissue
- F) Percutaneous drainage
- G) Insert stent
- H) Excision of the dead tissue

113. A middle aged woman had operation on the perforated. She has been unwell since the operation. She has difficulties in breathing. Despite of the full support from the high independent unit, her PO₂ is 6.
114. Pt post acute pancreatic attack has on CT-scan have non-enhanced .behind the tail of pancreas.
115. Girl post chicken-pox gets blue discoloration of skin after scratching ,it is spreading at the moment .

Theme 25. NATURE OF ANAEMIA

- A. Folate deficiency
- B. B12
- C. Iron deficiency
- D. Sickle cell
- E. B-thalassemia trait
- F. G-6-PD
- G. Hereditary spherocytosis

116. A boy brought t Hb 8, unconjugate bilirubin 120 mother says that anemia is hereditary in the family
117. A Greek boy brought by mother says that he looks pale inspite of being normal
118. Pt with severe menorrhagia & tired
119. A four year old boy has been having funny dietary pattern. He likes cheese & drinks 2 liters of milk a day. He looks pale & otherwise normal.

Theme 26. Dysphagia

- A. Achalasia
 - B. Pill Stricture
 - C. Barrett's
 - D. CA esophagus
 - E. Post cricoid cancer
 - F. Phar Pouch
 - G. GORD
120. A 34 yrs aged plump wom an has difficult in swallowing food, particularly after drinking alcohol & in the night.
121. A young girl (cannot remember this Q)
122. 45 yrs old man, he has difficulties in swallowing the food to start with, but the rest of the swallow is normal. He does not have regurgitation.
123. This Q is about a man has difficult in swallowing, & there is lump in his throat.
124. Pt having difficulty in swallowing specially liquids (did not mention about weight loss)

Theme 27. Cervical Pathology

- A. Cervical smear
 - B. Cervical biopsy
 - C. Colposcopy
125. Young Pt gets post coital bleeding. Speculum shows cervical ectopic
126. Pt attend clinic because of CIN 1
127. Pt with CIN-2 what will you do now

THEME 28. RESPIRATORY DISESE

this was given in an value form EMQ with clinical findings ? ECG & chest X-Ray & temp given in serial order.

- A. Pneumonia
 - B. Pulmonary embolism.
 - C. Pulmonary edema
 - D. Rupture of esophagus
 - E. MI
 - F. Pneumothorax
128. Pt with fever? basal consolidation & ECG normal
129. Pt with surgical emphysema (cant remember the rest --)
130. Pt with breathlessness & absent markings on chest x ray
131. Pt with severe pin in chest & q waves in v 3
132. Pt with severe pain in chest & q waves in v 1 to v3

Theme 28. Diagnosis Of Chest Pain

- A. Occupational asthma
- B. Pneumothorax
- C. Aortic dissection
- D. Interstitial ~{-}
- E. Pulmonary embolism

133. A carpenter has chronic breathlessness, he does not smoke. He becomes normal when he goes away for holidays.
134. A woman has cough. On examination she has crept on her lung base. (not exactly)
135. 50 year old Pt comes with severe pain in chest & now has breathlessness & difficult in breathing ECG shows gallop rhythm
136. A 50 yrs old man had severe chest pain under the sternal. He late had hemiparesis.

Theme 29. Asthma in children

- A. Peak flow diary
- B. Spirometry
- C. Exercise test
- D. No need investigation
- E. CXR

137. A young girl has 2 episodes of breathless so far & she is on short acting bronchodilator & now she is fine. Mother had eczema.
138. Boy comes with sudden breathless & trachea deviated to the left - pneumothorax
139. A girl in the A&E, she is too breathless to have her peak flow checked.
140. A boy has asthma, & he is given some short acting dilator inhaler. His parents dont know when he should use it.

Theme 30. Anatomy Of Renal Failure

- A. Bladder
- B. Prostate
- C. Papilla
- D. Medullary
- E. Interstitium
- F. Ureter
- G. Renal artery
- H. Cortex

141. A woman has not pass her urine for many hours (not exactly), on examination there is mass on super pubic
142. A old man has difficult in passing urine & dribbling for long time
143. A woman of sickle cell disease has not passed urine for many hours
144. A woman has protein urine & edema
145. Pt with hypertension & small kidney on one side

Theme 31. Investigation Of Hematuria

- A. Ultra sound
- B. Microscopy & sedimentation
- C. Anti-strep. Trite
- D. Creatinine
- E. IVU
- F. Urine osmolarity

146. A man came with Haematuria, he says this runs in the family
147. A boy has fever, oliguria and edema.
148. A 56 yrs old woman had operation on her uterine cancer years ago now comes with Haematuria
149. A man has been unwell for long time, came with hypertension & hematuria (cannot remember exactly, but sounded like he has got DM to me)

Theme 32 Diagnosis Of Hematuria

- A. Bladder cancer
- B. HSP
- C. SLE
- D. Polycystic kidney

150. A smoker with painless Haematuria
151. A 40 yrs old woman has Haematuria. She has got non-blanching purpura on her legs & back. (it is obviously HSP, but never come cross with somebody who is 40!)
152. A man with Haematuria, his father or somebody has got it.

Theme 33. Management of cardiac pts

- A. Nitrates
- B. B-blockers
- C. AEC
- D. Surgical intervention
- E. Valve replacement

153. A Pt has angina & he is on nitrates. He is having pains once a week although he has been taking his medication
154. A old woman has pains in her chest, angiograph shows three severe antero-sclerotic lesions.
155. 65 old woman, has murmur & palpitation {-}..(cannot remember)

Theme 34. Investigations for breast lump

- A. FNA
- B. Ultra sound
- C. Mammograph
- D. Discharge cytosis
- E. CT scan of the spine
- F. X-ray of the spine
- G. Duct-graphy

156. A young 24 yrs old woman with a breast lump. She has other lumps in the out quarter of her breast.
157. A young lady with a breast lump that varies in size according to her menses
158. 56 yrs old woman has blood stained nipple discharge. The discharge is from a solitary duct. Ultra sound & mammography show normal
- 159).48 yrs old woman has a breast lump in the upper out quarter of her breast. Mammograph showed a solid lump.

160. A old woman had breast cancer which was operated a few years ago, now she has numbness on her chest.

167. 52 yo businessman present with fever & rigor after coming back from 10 days meeting at Zambia

Theme 35. Diagnosis of gastroenterology findings

- A. *Crampy diarrhea*
- B. *Gastroenteritis*
- C. *UTI*
- D. *Carcinoma Colon*
- E. *Acute appendicitis*
- F. *Salmonella infection*

161. A young boy has fever, nausea & vomiting for 24 hours

162. A pregnant teacher has diarrhea & vomiting. The children with her all had same symptoms

163. A young boy has bloody diarrhea & vomiting for one day

Theme 36. Preparation for pre-operation

- A. *ECG*
- B. *CXR*
- C. *FBC*
- D. *Blood glucose*
- E. *Angiography*
- F. *CT*

164. A old Pt is due for his {-}. Operation. He has palpitation {-}..

165. A woman due for her operation, she is amenorrhic & tired

Theme 37. Bites & Stings

- A. *Thick & thin blood film*
- B. *Lyme disease serology*
- C. *Leptospirosis serology*
- D. *Hep a serology*
- E. *Hep b serology*
- F. *Skin swab test*
- G. *Skin prick test*

165. 28 yrs old policeman is brought to A&E after bitten by a drug addict while the f catch. There is a deep wound at his right hand.

166. 16 yo girl after forest walking, she had to remove an insect from her leg, now present with red raised ulcer.
